Paul Mitchell The School San Diego

QUANTITATIVE AND QUALITATIVE FACTORS

Factors for measuring the student's progress toward satisfactory completion of the program include maintaining:

- A minimum cumulative Theory grade level of 75% or higher.
- A minimum cumulative academic level of 75% or higher on practical skill assessments.*
- To determine whether a student meets the academic requirements for Satisfactory progress, theory and practical grades are averaged together to give a cumulative academic grade of 75% or higher.
- A minimum cumulative attendance of 85% of their scheduled hours**

**To meet the state practical requirements for graduation, students must complete all assigned practical skills assessments. See LEARNING PARTICIPATION GUIDELINES.*

***To determine your rate of attendance, divide the cumulative number of hours completed by the scheduled hours to date.*

A student who has not achieved the minimum cumulative GPA of 75% and/or who has not successfully completed at least a cumulative rate of attendance of 85% is not eligible for Title IV assistance, if applicable, unless the student is on warning or has prevailed upon appeal of the determination that has resulted in status of probation.
