Paul Mitchell The School St. Louis

CHILDREN ON CAMPUS POLICY

Paul Mitchell The School St. Louis maintains a professional educational environment designed for clock-hour instruction and supervised clinical training. Children of students are not permitted to be present during instructional time, clinic floor hours, theory, specialty classes, makeup hours, study time, or any other scheduled hours.

A limited exception is permitted when a child is scheduled to receive a guest service. In such cases, the child must remain under direct supervision at all times and must be picked up immediately upon completion of the service. If the student leaves with the child, the student must follow all school sign-out and clock-out procedures in accordance with attendance policies.

The school is not licensed or insured to provide childcare services and reserves the right to regulate campus access to maintain safety, supervision standards, and the integrity of the learning environment.
